Dr. Shahid Hamid  
Director, Laboratory for Insurance, Economic and Financial Research  
International Hurricane Research Center, AHC5  
Florida International University  
11200 SW 8<sup>th</sup> Street  
Miami, Florida 33199

Dear Dr. Hamid,

This will confirm the finding of the Florida Commission on Hurricane Loss Projection Methodology on July 19, 2023, that the Florida International University model has been determined acceptable for projecting hurricane loss costs and hurricane probable maximum loss levels for residential rate filings. The determination of acceptability expires on November 1, 2025.

The Commission has determined that the Florida Public Hurricane Loss Model Version 8.2, limited to the specific options acceptable for use in a Florida rate filing identified in Hurricane Standard A-1, Hurricane Modeling Input Data and Output Reports, Disclosure 6, and as selected in the input form provided in Disclosure 4, and reported in the output form provided in Disclosure 5:

- a. complies with the hurricane standards adopted by the Commission on October 26 & 27, 2021, and

Dr. Shahid Hamid  
Florida International University  
July 19, 2023  
Page Two

- b. is sufficiently accurate and reliable for projecting hurricane loss costs and hurricane probable maximum loss levels for residential property in Florida.

On behalf of the Commission, I congratulate you and your colleagues. We appreciate your participation and input in this process.

Sincerely,

A handwritten signature in black ink, appearing to read "Floyd Yager", with a stylized flourish at the end.

Floyd Yager, Chair  
Florida Commission on Hurricane Loss Projection Methodology
